

WALL – OUTDOOR WALL-MOUNTED WATER TAP

Exclusive outdoor designer tap made from glass peened stainless steel, for wall mounting. This water tap is specially designed for the quality-conscious house and cottage owner, but is also suitable for schools and public buildings where design, functionality and robustness must become one.

Is the product to be placed in an area with a high environmental impact, including sea fog, it is recommended to choose a special design i.e. an electro polished surface.
