DUO H 30 PARK WATER TAP

DRINKING FOUNTAIN

### DANISH DESIGN FOR GARDENS

FROSTLINE® water taps are made from glass peened stainless steel. The classic design is a stylish addition to any garden or terrace. The water taps are available in many designs: a garden tap for watering or for a cold drink of water, a rinse tap and bowl for the outdoor kitchen or a shower for the outdoor spa or pool-area.

FROSTLINE® water taps functions all year round. The taps are provided with a self-emptying 3-ways sliding valve ensuring that the tap remains frost-proof even at hard freezing temperatures.
