

CITY

Citypost is made of cast iron and brass. Specially designed for public spaces. Without a drinking bowl, the drinking post is less prone to vandalism. The open design allows you to drink directly from it or fill the water bottle - which also makes it suitable for wheelchair users.

CITY

Frostline is manufactured in Denmark and has more than 25 years of experience. We offer a wide range of frost-free outdoor products in beautiful design, high quality and with great functionality.

The fountain works by a self-draining mechanical valve empties the water tap after use, ensuring fresh water all year round. Our products do not require use of electricity to ensure frost-free, and made in stainless steel - and is therefor environmentally friendly in every way. The push button provides a simple operation and good comfort. The product is delivered complete with a well.

We recommend

It is recommended to use supply water pipes of PEM pipes of 25mm or larger.
