

DUO CLASSIC

Frostline Classic is the ORIGINAL frost-free water tap from the DUO series. Classic was created based on a vision to outcompete obsolescence. The tap is a fusion of streamlined quality and timeless design. It is handmade in Denmark and crafted from recyclable stainless steel of the highest quality, ensuring enjoyment for many years.

DUO CLASSIC

Frostline is manufactured in Denmark and has more than 25 years of experience. We offer a wide range of frost-free outdoor products in beautiful design, high quality and with great functionality.

The water tap works by a self-draining mechanical valve empties the water tap after use, ensuring fresh water all year round. Our products do not require use of electricity to ensure frost-free, and made in stainless steel - and is therefor environmentally friendly in every way. The one handle grip provides a simple operation and good comfort. The product is delivered complete with a well.

We recommend

It is recommended to use supply water pipes of PEM pipes of 25mm or larger.

Glassblown
