## DUO WALL POST VALVE

Decorate your facade with the frost-free and timeless Frostline wall from the DUO series. Upgrade your home and turn a practical measure into an aesthetic source of quality of life. The frost-free faucet is available with a matching hose saddle, so you have elegant storage for the garden hose. The fixture is a fusion of streamlined quality and timeless design, and it is handmade in Denmark. The product is handmade from recyclable stainless steel of the highest quality, so you can enjoy it for many years.

# DUO WALL POST VALVE

Frostline is manufactured in Denmark and today has more than 25 years of experience. We offer a wide range of frost-free outdoor products in beautiful design, high quality and with great functionality.

Wall works by a self-draining mechanical valve emptying the tap valve of water after use, which ensures fresh water all year round. Our products do not require the use of electricity to ensure frost-freeness, and are made of stainless steel - so environmentally friendly in every way. The water dispenser is a handle, which provides simple operation and good comfort.

## Assembly

If connection with ½" thread is desired, shorten the copper pipe all the way down.

Glass blown

Copper

Polished

Black

See also DUO Snake saddle, which matches perfectly with DUO Wall.

## IMPORTANT

Wall mounting: For frost-proof function and guarantee, there is a requirement for a frost-free water supply all year round and that the product has a fall of at least 2-3% towards the outer wall.

Furthermore, that a product in standard dimensions is used. Note: At temperatures below 5 degrees, hose nozzles or other equipment that reduces light must not be fitted.

## Specifications

### Product dimensions

Bottling	½"
Connection	15 mm or ½"
Back plate H-B	150 x 90 mm
Front edge to facade	130-170 mm

### Packaging
