

DUO COMMERCIAL

Duo commercial is a frost-free solution in an exclusive and timeless design. This model is developed for places with a need for a powerful water supply, which makes it suitable for outdoor areas such as parks, golf courses and urban spaces. The product in peened stainless steel is prepared for a hose to be mounted on the spout. The water post is also drinking water approved.

DUO COMMERCIAL

Frostline is manufactured in Denmark and has more than 25 years of experience. We offer a wide range of frost-free outdoor products in beautiful design, high quality and with great functionality.

The water tap works by a self-draining mechanical valve empties the water tap after use, ensuring fresh water all year round. Our products do not require use of electricity to ensure frost-free, and made in stainless steel - and is therefor environmentally friendly in every way. The one handle grip provides a simple operation and good comfort. The product is delivered complete with a well.

We recommend

It is recommended to use supply water pipes of PEM pipes of 25mm or larger.
