## PRO PUBLIC FREE STANDING OUTDOOR SHOWER

The free standing outdoor shower from the PRO Public series is suitable for all public places where you need to be able to wash yourself.

Comes with a handle that has a tempo stop. It has an expression that makes it look like a natural part of the surroundings in which it is located.

Produced in solid and stainless steel and subsequently hand assembled in Denmark. Thus, you are guaranteed a frost-free solution that lasts year after year.

# PRO PUBLIC FREE STANDING OUTDOOR SHOWER

Frostline is manufactured in Denmark and today has more than 25 years of experience. We offer a wide range of frost-free outdoor products in beautiful design, high quality and with great functionality. The shower works by a self-draining mechanical valve emptying the water tank of water after use, which ensures fresh water all year round. Our products do not require the use of electricity to ensure frost-freeness, and are made of stainless steel, so environmentally friendly in every way. The shower is a handle, which provides simple operation and good comfort. The product is delivered complete with well.

## Possibility of tempered water

It is possible to bathe in water with a desired temperature. It is done quite simply with a mixing circuit on the water connection. An environmentally sound and advantageous solution, as you both save costs for installation and operation, as well as ensuring good daily comfort. You get the same water temperature every time, and at the same time avoid accidental scalding and large heat losses in the water supply. The temperature can be regulated as desired.

## We recommend

It is recommended to use a supply water line of PEM pipe of 25mm or larger.

## Specifications

### Installation target

Stand height	2194 mm
Tap height	2083 mm
Measure the fixture	839 mm
Shower head	Ø 129 mm
Well	Ø200 mm x h 900 mm
Valve depth in well	600 mm (minimum)
Connection	

### Product dimensions

Total height	3100 mm
Total width	200 mm

### Packaging

Measure H-B-D	200 x 320 x 3100 mm
Weight	13.7 kg

### Frostline valve

Capacity	18 l/min. 3-6 bars
